

HCBS RULE 1 POLICIES AND PROCEDURES FOR INDIVIDUAL OUTING

Policy and Procedures indicating the ability for individual outings.

We encourage group activities, but we understand someone might want to go somewhere the other residents do not want to go to.

Per program designs Facility Schedule Section C. Activities

“The facility provides at least one social and/or recreational individual or group activity outside the facility each week for each consumer, unless there is a documented limitation on such activity for an individual by their physician.” This will be documented in the IPP. It is possible that each resident will opt for an individual activity each week. This is supported by Rule 1, 4 and 8
