

HCBS RULE 3 PREFERRED COMMUNICATION

This facility communicates with individuals based on needs and preferences including alternative methods of communication. This means that prior to moving into our home we will learn everyone's likes and dislikes and needs and preferences including their preferred method of communication. This includes alternative methods of communication such as:

- PECS (picture exchange communication system)
- Speech generating devices.
- Communication board
- Sign language
- Gestures/ body language

We will only accept those individuals whose preferred choice of communication is able to be supported by our staff.
